

International Conference on Energy Efficiency in Cities | Puebla, Mexico | February 17-18, 2016

The start of a new energy era? World Outlook Energy 2015

- 2015 saw lower prices for all fossil fuels
 - Oil & gas could face second year of falling upstream investment in 2016
 - Coal prices remain at rock-bottom as demand slows in China
- Signals turned green ahead of key Paris climate summit
 - Pledges of 150+ countries account for 90% of energy-related emissions
 - Renewables capacity additions at a record-high of 130 GW in 2014
 - Fossil-fuel subsidy reform, led by India & Indonesia, reduces the global subsidy bill below \$500 billion in 2014
- Multiple signs of change, but are they moving the energy system in the right direction?
