

Subsidy Lab

Addressing Affordability and Last Mile **Sustained Energy Access**

GOGLA

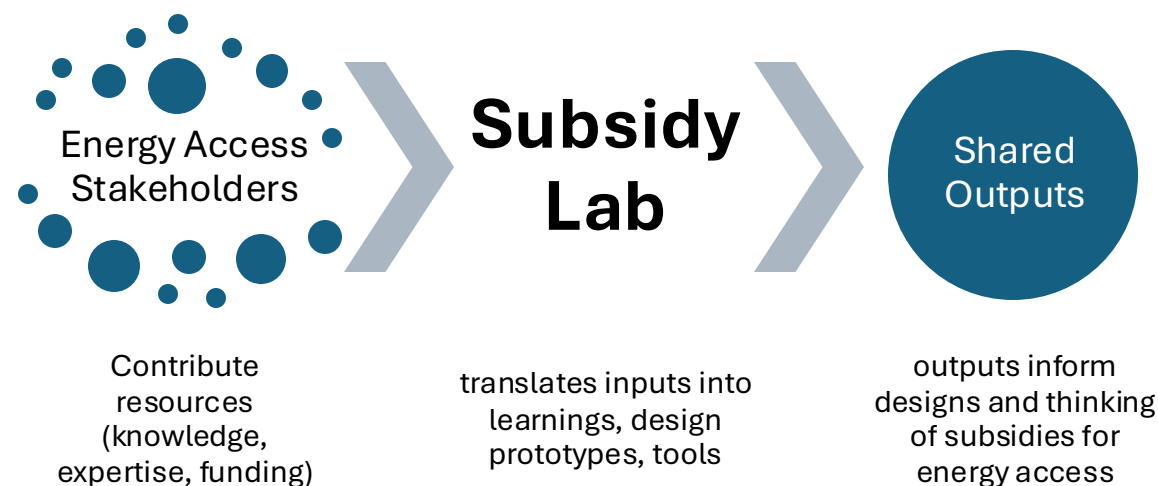

THE SUBSIDY LAB

WHO WE ARE, WHAT WE DO

The Subsidy Lab is a collaborative platform that helps stakeholders **design, implement, and scale effective subsidy and financing mechanisms for energy access.**

- Connecting practitioners, policymakers, donors, financiers, and private sector actors
- Sharing evidence, lessons learned, and practical tools
- Promoting innovation and cross-sector learning
- Supporting better-designed, more effective financing and subsidy approaches

The lab is coordinated by ESMAP, EnDev, GOGLA and CCA, but welcomes the participation of all stakeholders.

WHAT'S NEXT

- Global Off-Grid Solar Forum & Expo 2026, 27 - 29 October 2026, Kigali, Rwanda
<https://www.offgridsolarforum.org>

Do reach out!

We'd love to hear from you:

- Share ideas, experiences, and innovations in subsidy and financing mechanisms
- Explore collaboration and partnership opportunities
- Seek support or exchange lessons learned from ongoing programs
- Provide feedback on this webinar and future Lab activities
