

Government Procurement Policy for Energy Efficiency Products

Dr. Li Tienan

Director of Center for Industrial Energy Efficiency, China

Deputy Manager-General of China Quality Mark Certification Group

Topics

- Background
- Policies
- Status Quo
- Future Outlook

Background

- ❑ EE product certification programme and public EE initiative;
- ❑ China started pilot program of government procurement reform in 1996.
- ❑ *The Law of Government Procurement of P. R. China* was enforced on 1st Jan, 2003.

Background

□ Definition of Government Procurement in China:

Generally known as **public procurement**, government procurement is the procurement of goods and services for government, government agencies and social groups through legal procedures and methods from markets at home and abroad.

The subject of government procurement: National bodies, government agencies and groups operating on **national financial support**.

Policies

□ Voluntary Policy:

- On 17th Dec, 2004, the Circular on Implementation of Government Procurement of Energy-saving Product was issued Jointly by the Ministry of Finance (MOF) and the National Development and Reform Committee (NDRC).
- Certified EE products will be purchased in priority.

Policies

The government procurement list

Policies

- **Mandatory Policy:**
 - The Circular on Establishing A Mandatory Government Procurement Scheme of Energy-saving Products was issued by General Office of the State Council on 30th July, 2007.
 - Several kind of EE products are purchased in mandatory.

Policies

- Criteria for prioritized procurement:
 - Energy-saving products of high energy efficiency, and certified by nationally admitted certification bodies;
 - Manufactured in a large amount by mature technique and of reliable quality;
 - Healthy supply chain and good after-sale service;
 - The supplier should meet relevant requirements in The Law.

Policies

- **Criteria for Mandatory Procurement:**
 - Products of general usage, suitable for centralized purchase
 - Energy-saving products of high energy efficiency, and certified by nationally admitted certification bodies;
 - Enough suppliers in the market(no less than 5) to guarantee full competitiveness for the purchaser.

Policies

- At present, 9 categories of products are in the list of mandatory procurement:
 - Air conditioner;
 - Water heater;
 - TV;
 - Double-capped and self-ballasted fluorescent lamp;
 - Computer;
 - Printer and Monitor;
 - Toilet and Water tap.

Policies

□ Maintenance:

- The government procurement list will be updated regularly.
- Before official issuance of a new list, it should be publicly announced through government designated press such as China Government Procurement News no less than 15 workdays.
- Products found to be unqualified during the Public Notice period won't be included in the procurement list.

Policies

□ Monitoring:

- Energy-saving products included in the Prioritized and Mandatory Procurement Lists.
- National admitted certification body of energy-saving products is fully in charge of monitoring
- The certificates will be suspended or cancelled if certain products cannot meet procurement requirement on a on-going basis.
- The monitoring results will be reported to MOF and NDRC on time.

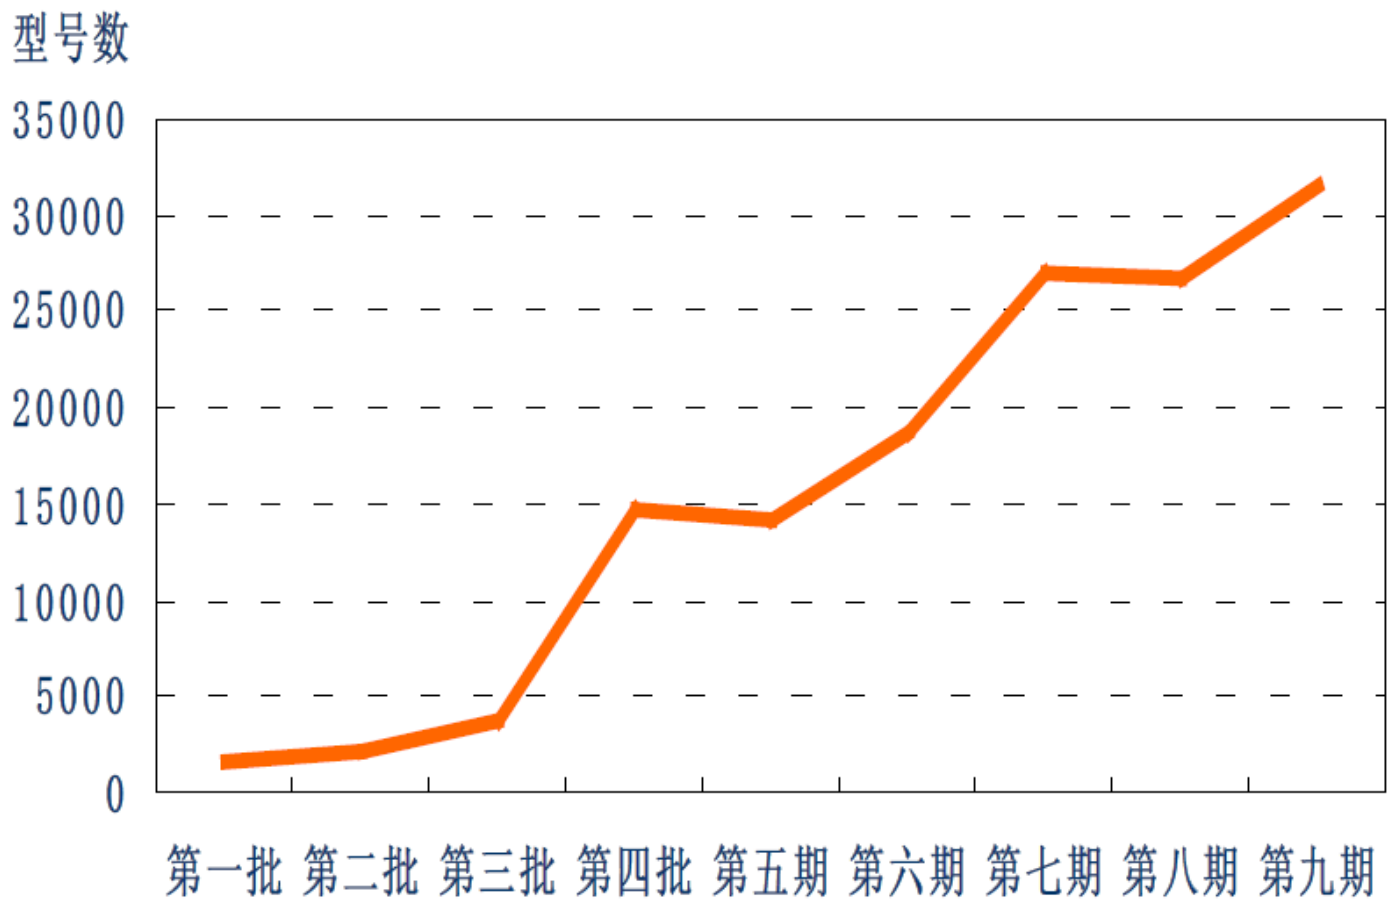

Status Quo

In 2010, government procurement in China reached over 8.4 trillion yuan in total.

By statistics, in 2010, procurement of products of energy-saving and environment protection reached 7,215 billion yuan, account for 77.6% of all purchased products.

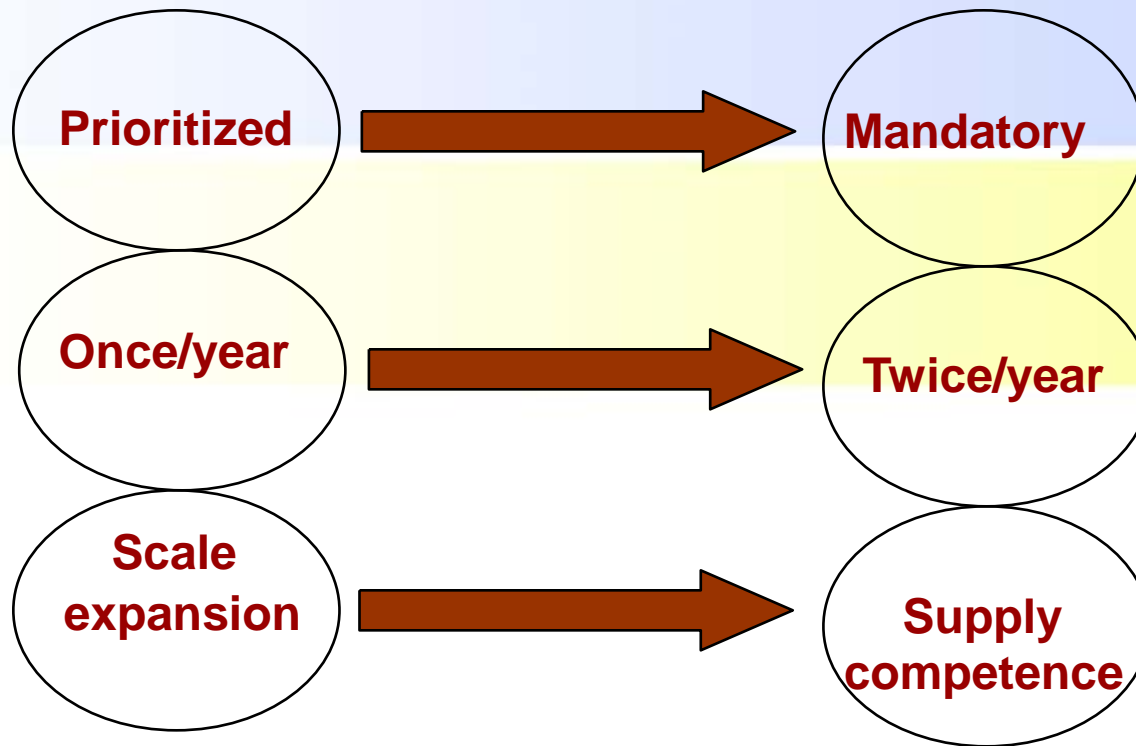

Leverage relevant subsidy/incentive programmes in China.

Status Quo

Future Outlook

- Scale- up of government procurement of energy-saving products:

Future Outlook

- Operating energy consumption  Standby energy consumption;
- Consumer products  industrial products;
- Traditional energy consumption  new and renewable energy consumption;
- Direct energy saving  indirect energy saving;
- Single product  product system.

Thanks
