Combate Climate Change

PROFIT
Support Financial Sustainability

Initial Commission participation of 75M
SE4ALL Technical Assistance Facility

A necessary tool for policy follow up and project preparation

- Support countries in their reform agenda
- To that end, there must be a catalysing investment framework
- High investment needs involvement of the private sector
- Promote capacity development, awareness raising, transfer of technology
SE4ALL Technical Assistance Facility

A necessary tool for policy follow up and project preparation

- Support countries in their reform agenda
- To that end, there must be a catalysing investment framework
- High investment needs involvement of the private sector
- Promote capacity development, awareness raising, transfer of technology
Purpose:
 to deliver high level technical assistance at country (and regional level) through expert missions to be mobilised at short notice and to support committed countries to reach the SE4All objectives
SE4ALL Technical Assistance Facility-Activities

1. Initial stocktaking and technical support in the elaboration and implementation of national energy sector policies and reforms;
2. Capacity building in policy and regulatory framework;
3. Technical support in the programming and preparation of concrete investment projects
4. Mobilization of funds and facilitation of partnership (with particular emphasis on the private sector and the banking institutions); and
5. Industrial and technology cooperation; project demonstration.
SE4ALL Technical Assistance Facility

Two tenders launched and evaluation ongoing

- West and Central Africa - EUR 28M
- East and Southern Africa - EUR 17M

- Priority will be given to the countries willing to go forward with reforms
- Other regions? → will be covered – not defined yet
Call for Proposals - Rural Electrification

143 project applications received

€ 1,2 billion
Total amount of investments proposed

€ 825 million
Grant amount requested

€ 55 million
EC funding available

Targeted countries
Call for Proposals - Distribution of proposals per lead applicant

Local applicants, 58%

European applicants, 42%

- Germany: 7
- Austria: 11
- Belgium: 2
- Spain: 2
- France: 8
- Great Britain: 9
- Ireland: 1
- Italy: 5
- The Netherlands: 6
- Portugal: 6
- Sweden: 1
- Switzerland: 2

42% European applicants
Call for Proposals - Grant requested and total project value
Call for proposals in fragile countries

Rural electrification

- Burundi
- Central African Republic
- Liberia
- Somalia
- Mali
Programming process: translation of key principles of Agenda for Change

Main elements of the new period:

- Ownership
- Sector concentration
- Differentiation

- European Development Fund: €34 bn
- Development Cooperation Instrument: €23 bn
- Other External Actions (Heading 4): €62 bn
How much energy?

The EU has already mobilised €465 million, for the short term, to support actions in the energy field mainly to be managed through EU Africa Infrastructure Trust Fund.
Energy in National Programming

Energy stands high in the bilateral cooperation:

At least **25 countries** indicated that they favour **energy as focal sector** for the next programming cooperation (2014-2020)

Regional seminars are ongoing
Energy in Regional Programming

Energy is important in the regional cooperation with:

- West Africa
- East Africa
- Central Africa (Great Lakes)
- Central Asia, Middle East/Gulf
- Caribbean
- Neighbourhood South

Notably through grants in Regional Investment Facilities
Global public goods and challenges (GPGC)

(Migration & asylum)

(Food security)

(Sustainable energy)

(Environment & Climate Change)

(Human development)

(draft allocation in EUR mil)
GPGC objectives

- Support **multi-regional, multi-country** and **cross-cutting actions**

- Build alliances of relevant stakeholders
