SE4ALL Technical Assistance Program (S-TAP)

Dr. Venkata Putti
ESMAP

ESMAP Knowledge Exchange Forum
The Hague
21 November 2013
Country Action Process

- **Exchange of letters**
- **Identified ministry focal point**
- **Initial dialogues**
- **Cross-sectoral/multi-stakeholder buy-in**

**Country Opt-In**
- Situation analysis & stock taking & gap analysis
- Potential high impact opportunities for scaling up and acceleration
- Multi-stakeholder consultations, verification, and identification of potential partners

**Stock-taking & Gap Analysis**
- Nationally tailored goals
- Development of a portfolio of investment programs (national/regional)
- Enabling frameworks
- Capacity building
- Matchmaking/identification of multi-stakeholder partners
- Resource mobilization
- Monitoring & accountability frameworks

**National Action Plans & Programs**
- Investment and implementation
- On-going capacity building
- Monitoring and feedback
- Knowledge sharing

**Implementation & Monitoring**

- 2-3 months
- 6-18 months
- 10-20 years
Expected Outcomes of Country TA

• **National Energy Action Plan**
  – A roadmap for 2030
  – Builds on existing plans and programs
  – Identifies gaps to be filled to achieve 2030 goals

• **Investment Prospectus**
  – Identifies specific projects and programs
  – Estimates investment requirements
  – Mobilizes investments

• **Enabling Environment**
  – Policy/regulation
  – Capacity building
  – Innovative business and institutional models
  – Access to finance
  – Technology transfer
ESMAP’s S-TAP

• The development objective of S-TAP is “to support the expansion of access to modern energy services to at least 200 million people by 2030”
• ESMAP aims to assist about 20 countries towards this objective
• The first tranche with $15m focuses on 7 countries and 2 regional initiatives
Country Action

- Nepal
- Bangladesh
- Myanmar
- Guatemala
- Honduras
- Nicaragua
- Senegal
- Guinea
- Liberia
- Ghana
- Burundi
- Bangladesh
- Mozambique

Current Status

- **SE4ALL activities have kicked off in all S-TAP countries:**
  - including local engagement of relevant government entities and the development partners.
  - donor coordinating mechanism is being used where it exists, and where not, the SE4ALL TA has created a new coordinating mechanism (e.g. Guinea)
- **Senegal:** strong endorsement from new Minister of Energy in Senegal (Ministry has a strong focus on rural electrification and sees S-TAP as a platform for progress). Procurement is underway for studies of two rural electrification concessions
- **Guinea:** new World Bank staff started in September 2013, bringing solid experience from leading SWAp program in Rwanda. Procurement underway for PPP activity on hydro development
- **Burundi:** focus on private sector investment in the energy sector, including a review of the electricity law and agreement to develop a standard PPA framework
Current Status

• **Liberia**: review of draft energy law and preparation for 4-6 prefeasibility studies under way
• **Mozambique**: in the process of getting a consultant activated to kick off activities
• **Myanmar**: First national workshop held in May 2013; Procurement for Least Cost Plan and Investment Prospectus under way
• **Nepal**: Support to National Clean Cooking Program to achieve universal access by 2017; Scope of TA under discussion with AEPC
• **Central America**: Initial focus on investment prospectus in 3 countries

• **Africa regional activity has started with the flagship report on regional energy trade.**
  • The EOI has been issued with very strong interest shown (more than 30 firms).
  • RFPs to be issued with execution expected to begin in Q1 2014
