April 25/2016 - Reykjavik

50's

**Geothermal early
studies began in
El Salvador**

60's

The bottom of the United Nations, signed an agreement with El Salvador Geotherma

A black and white photograph of a construction site. In the foreground, several workers are visible, some shirtless and wearing hats. They are standing on a concrete path or foundation. In the background, there is a large structure under construction, heavily encased in a complex network of wooden scaffolding. The sky is overcast. A large, semi-transparent circular graphic with a white border is overlaid on the center of the image, containing the text '70's' in a large, white, sans-serif font.

70's

**the first geothermal power plant
was inaugurated in ahuchapan**
